# Recommendation Letter

To Whom It May Concern,

AGT Plus has cooperated with Addlium for 3 months in 2022. The company offered high quality lead generation and content advising services on LinkedIn, oriented on the B2B market.

During the period of cooperation, the Addlium team demonstrated their deep expertise, client-oriented approach and operational efficiency. The company has proved themselves as a reliable, resourceful and diligent partner with excellent organisational and management skills in implementing B2B social selling approach.

Due to delegating tasks in lead generation, we managed to receive valuable contacts for our export activities, who are interested in cooperation with our company. Also, we improve our internal processes based on B2B sales consulting sessions from Addlium's CEO Dmytro Suslov.

I honestly recommend Addlium to any Company that is looking for a contractor for personal branding and lead generation for entering the new markets through LinkedIn.

Maksym Rogozhyn,  
CEO of AGT Plus
